

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK

THOMAS F. DWYER

Write the full name of each plaintiff.

CV

(Include case number if one has been assigned)

-against-

UNITED KINGDOM GENERAL COMMUNICATIONS HEADQUARTERS (UK GCHQ)
MALCOLM JOHN TOMBS

COMPLAINT

Do you want a jury trial?

☒ Yes ☐ No

Write the full name of each defendant. If you need more space, please write "see attached" in the space above and attach an additional sheet of paper with the full list of names. The names listed above must be identical to those contained in Section II.

NOTICE

The public can access electronic court files. For privacy and security reasons, papers filed with the court should therefore *not* contain: an individual's full social security number or full birth date; the full name of a person known to be a minor; or a complete financial account number. A filing may include *only*: the last four digits of a social security number; the year of an individual's birth; a minor's initials; and the last four digits of a financial account number. See Federal Rule of Civil Procedure 5.2.

I. BASIS FOR JURISDICTION

Federal courts are courts of limited jurisdiction (limited power). Generally, only two types of cases can be heard in federal court: cases involving a federal question and cases involving diversity of citizenship of the parties. Under 28 U.S.C. § 1331, a case arising under the United States Constitution or federal laws or treaties is a federal question case. Under 28 U.S.C. § 1332, a case in which a citizen of one State sues a citizen of another State or nation, and the amount in controversy is more than \$75,000, is a diversity case. In a diversity case, no defendant may be a citizen of the same State as any plaintiff.

What is the basis for federal-court jurisdiction in your case?

☐ Federal Question

☒ Diversity of Citizenship

A. If you checked Federal Question

Which of your federal constitutional or federal statutory rights have been violated?

USC Title 18 Sec 241; 4th, 5th, 13th, 14th AMENDMENTS TO THE US Constitution
 2001-14-15
 8 CFR TORTURE, USC Title 18 CH 113B 2332b Acts Terrorism transcending

NATIONAL boundaries

*CONSPIRACY AGAINST RIGHTS

B. If you checked Diversity of Citizenship**1. Citizenship of the parties**

Of what State is each party a citizen?

The plaintiff, UK CHQ, is a citizen of the State of
 (Plaintiff's name)

UNITED KINGDOM

(State in which the person resides and intends to remain.)

or, if not lawfully admitted for permanent residence in the United States, a citizen or subject of the foreign state of

ENGLAND

UNITED KINGDOM

If more than one plaintiff is named in the complaint, attach additional pages providing information for each additional plaintiff.

If the defendant is an individual:

The defendant, MALCOLM JOHN TOMBS, is a citizen of the State of
(Defendant's name)

or, if not lawfully admitted for permanent residence in the United States, a citizen or
subject of the foreign state of

ENGLAND
UNITED KINGDOM

If the defendant is a corporation:

The defendant, UKGHC, is incorporated under the laws of
the State of

and has its principal place of business in the State of

or is incorporated under the laws of (foreign state) ENGLAND, UNITED KINGDOM

and has its principal place of business in ENGLAND, UNITED KINGDOM

If more than one defendant is named in the complaint, attach additional pages providing
information for each additional defendant.

II. PARTIES

A. Plaintiff Information

Provide the following information for each plaintiff named in the complaint. Attach additional
pages if needed.

<u>THOMAS</u>	<u>F</u>	<u>DWYER</u>
First Name	Middle Initial	Last Name
<u>P.O. BOX 472</u>		
Street Address		
<u>ORANGE, WALDEN</u>	<u>NY</u>	<u>12586</u>
County, City	State	Zip Code
<u>NONE</u>	<u>N/A</u>	
Telephone Number	Email Address (if available)	

B. Defendant Information

To the best of your ability, provide addresses where each defendant may be served. If the correct information is not provided, it could delay or prevent service of the complaint on the defendant. Make sure that the defendants listed below are the same as those listed in the caption. Attach additional pages if needed.

Defendant 1: UNITED KINGDOM GENERAL COMMUNICATIONS HEADQUARTERS
 First Name Last Name

V. PLAINTIFF'S CERTIFICATION AND WARNINGS

By signing below, I certify to the best of my knowledge, information, and belief that: (1) the complaint is not being presented for an improper purpose (such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation); (2) the claims are supported by existing law or by a nonfrivolous argument to change existing law; (3) the factual contentions have evidentiary support or, if specifically so identified, will likely have evidentiary support after a reasonable opportunity for further investigation or discovery; and (4) the complaint otherwise complies with the requirements of Federal Rule of Civil Procedure 11.

I agree to notify the Clerk's Office in writing of any changes to my mailing address. I understand that my failure to keep a current address on file with the Clerk's Office may result in the dismissal of my case.

Each Plaintiff must sign and date the complaint. Attach additional pages if necessary. If seeking to proceed without prepayment of fees, each plaintiff must also submit an IFP application.

I have read the Pro Se (Nonprisoner) Consent to Receive Documents Electronically:

☐ Yes ☒ No

If you do consent to receive documents electronically, submit the completed form with your complaint. If you do not consent, please do not attach the form.

United States District Court
Southern District of New York

Pro Se (Nonprisoner) Consent to Receive Documents Electronically

Parties who are not represented by an attorney and are not currently incarcerated may choose to receive documents in their cases electronically (by e-mail) instead of by regular mail. Receiving documents by regular mail is still an option, but if you would rather receive them only electronically, you must do the following:

1. Sign up for a PACER login and password by contacting PACER¹ at www.pacer.uscourts.gov or 1-800-676-6856;
2. Complete and sign this form.

If you consent to receive documents electronically, you will receive a Notice of Electronic Filing by e-mail each time a document is filed in your case. After receiving the notice, you are permitted one "free look" at the document by clicking on the hyperlinked document number in the e-mail.² Once you click the hyperlink and access the document, you may not be able to access the document for free again. After 15 days, the hyperlink will no longer provide free access. Any time that the hyperlink is accessed after the first "free look" or the 15 days, you will be asked for a PACER login and may be charged to view the document. For this reason, *you should print or save the document during the "free look" to avoid future charges.*

IMPORTANT NOTICE

Under Rule 5 of the Federal Rules of Civil Procedure, Local Civil Rule 5.2, and the Court's Electronic Case Filing Rules & Instructions, documents may be served by electronic means. If you register for electronic service:

1. You will no longer receive documents in the mail;
2. If you do not view and download your documents during your "free look" and within 15 days of when the court sends the e-mail notice, you will be charged for looking at the documents;
3. This service does *not* allow you to electronically file your documents;
4. It will be your duty to regularly review the docket sheet of the case.³

¹ Public Access to Court Electronic Records (PACER) (www.pacer.uscourts.gov) is an electronic public access service that allows users to obtain case and docket information from federal appellate, district, and bankruptcy courts, and the PACER Case Locator over the internet.

² You must review the Court's actual order, decree, or judgment and not rely on the description in the email notice alone. See ECF Rule 4.3

³ The docket sheet is the official record of all filings in a case. You can view the docket sheet, including images of electronically filed documents, using PACER or you can use one of the public access computers available in the Clerk's Office at the Court.

500 PEARL STREET | NEW YORK, NY 10007
300 QUARROPAS STREET | WHITE PLAINS, NY 10601

PRO SE INTAKE UNIT: 212-805-0175

CONSENT TO ELECTRONIC SERVICE

I hereby consent to receive electronic service of notices and documents in my case(s) listed below. I affirm that:

1. I have regular access to my e-mail account and to the internet and will check regularly for Notices of Electronic Filing;
2. I have established a PACER account;
3. I understand that electronic service is service under Rule 5 of the Federal Rules of Civil Procedure and Rule 5.2 of the Local Civil Rules, and that I will no longer receive paper copies of case filings, including motions, decisions, orders, and other documents;
4. I will promptly notify the Court if there is any change in my personal data, such as name, address, or e-mail address, or if I wish to cancel this consent to electronic service;
5. I understand that I must regularly review the docket sheet of my case so that I do not miss a filing; and
6. I understand that this consent applies only to the cases listed below and that if I file additional cases in which I would like to receive electronic service of notices of documents, I must file consent forms for those cases.

Civil case(s) filed in the Southern District of New York:

Note: This consent will apply to all cases that you have filed in this court, so please list all of your pending and terminated cases. For each case, include the case name and docket number (for example, John Doe v. New City, 10-CV-01234).

<https://nypost.com/2004/02/27/british-bugged-annan/> British Bugged Annan by

Niles Lathem

February 27, 2004 5:00am

WASHINGTON – The United Nations was rocked by a spy scandal yesterday when a former British Cabinet minister said her government eavesdropped on Secretary-General Kofi Annan during the prelude to the Iraq war.

The cloak-and-dagger allegations were made by Clair Short, Britain's former development secretary, who said in a bombshell interview that she read transcripts of Annan's private conversations when she was in British Prime Minister Tony Blair's Cabinet.

Short's claims created an uproar in Britain where Blair called her "deeply irresponsible" – but he did not deny his government spied on Annan during the stormy U.N. debate about whether to go to war in Iraq last year.

At U.N. headquarters in Manhattan, Annan's spokesman called the spying operations illegal and demanded that they be stopped if they are occurring.

The United Nations has long been regarded as a nest of spies and it's been no secret for decades that the United States and most other delegations have major espionage operations going on out of their diplomatic missions.

Forests of high-tech antennas and sensors are clearly visible from the rooftops of nearby buildings.

But Short's allegations represent the first time that an intelligence service may have bugged the offices and communications of the U.N. secretary-general.

"These things are done. And in the case of Kofi's office, it's been done for some time," Short told the BBC.

"I know I have seen transcripts of Kofi Annan's conversations. In fact, I have had conversations with Kofi in the run-up to the war thinking, 'Oh dear, there will be a transcript of this and people will see what he and I are saying,' " added Short, who was against the Iraq war and recently called for Blair to resign.

U.N. spokesman Fred Eckhard said spy operations against the secretary-general would "undermine the integrity and confidential nature" of global diplomacy and are illegal under at least three statutes of international law and the U.N. charter.

"We are not in a position to determine whether this is true or not. We are throwing down a red flag and saying if this is true, stop it," he said.

XXXXXXX Record
Out of Control Driver

Published: 2:00 AM – 11//XX/05

Last updated: 3:30 PM - 12/17/10

XXXXXXX— Benedetto Musetti was fiddling with his credit card at the Hess station's pump on Tuesday when he heard the crash. He looked over the truck bed of his silver 2003 Nissan Frontier and across the bottleneck intersection of Routes XXX and XX in downtown XXXXXXX. A gray Chevy Cavalier was barreling through the busy intersection. It had rear-ended a tan 2003 Buick Regal, driven by Melissa King of XXXXXXX, passing the statue of President William McKinley and heading across Main Street, toward the gas station. "My first reaction was, 'This must be a car chase,' " said Musetti. "I was looking for the cops and thinking, 'he's not going to hit me ?' "

The Chevy slammed into the front end of Musetti's pickup, denting the driver's side door and twisting the left front tire.

Musetti was on the other side as the impact pushed his truck into the guardrails around The pumps. The erratic car then veered back across Main Street and into XXXXXX' Appliances, crumbling some brickwork and shattering a display window. John XXXXXXwas in his store at the time.

"How he came across the street and into the building without hitting another car or a person, I > have no idea," he said. Musetti ran across the street.

"You just hit my truck!" he screamed.

He said the driver told him he'd had a seizure.

XXXXXXXpolice are still trying to piece together the rest. They know the driver's name:XXXXXXX X XXXX He's 51 and lives inXXXXXXXXXX. They said he wasn't wearing a seat belt and was unresponsive and foaming at the mouth when they arrived. Police said there was no evidence of drugs or medications in XXXXXX car. He was transported to St. Luke's XXXXXXXXXX Hospital in XXXXXXXXXX, but when police followed up, the hospital said XXXX had checked himself out. Police don't know if XXXXXX has health problems, because his medical records are confidential.

No charges were filed, but police said they will report the accident to the Department of Motor Vehicles.

Investigatory Powers Tribunal

P.O.Box 33220

London

SW1H 9ZQ

NOTICE OF DECISION

Pursuant to Section 67 of the Regulation of Investigatory Powers Act 2000 (as amended) (RIPA) and Rule 15 (5) of the Investigatory Powers Tribunal Rules 2018 (the Rules)

TOM DWYER - v – GCHQ

IPT19/107/CH

- The Tribunal has considered the complaint and section 7 proceeding brought.
- The Tribunal has determined that your complaint and section 7 proceeding fall within section 67(4) of RIPA. The Tribunal is therefore under no duty to hear, consider or determine the complaint/proceedings.
- Under Rule 15(5) of the Rules the Tribunal is required to inform the complainant of any reasoning for this decision that they consider appropriate.
- The Tribunal have carefully considered your applications and have concluded that they are clearly unsustainable, that is to say that they have no possible prospect of success. These complaints are inherently implausible; there is no objective evidence to support them; and no reasonable explanation as to why the complainant would have been selected for such treatment.
- RIPA does not provide for any right of appeal from this decision which is therefore final and the Tribunal is not able to enter into any further correspondence.

Mr [REDACTED]
[REDACTED]
[REDACTED]

Dear Mr [REDACTED]

Thank you for your email of 06 October requesting information regarding a Malcolm John Tombs.

I am treating your correspondence as a request for information under the Freedom of Information Act 2000 (FOIA). The information you have requested falls entirely within the scope of the absolute exemption provided for at section 40 (Personal Data) of the FOIA. Section 40 is an absolute exemption and there is therefore no requirement to consider the public interest in making a decision.

If you have any queries regarding the content of this letter, please contact this office in the first instance.

If you wish to complain about the handling of your request, or the content of this response, you can request an independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review should be made within 40 working days of the date of this response.

If you remain dissatisfied following an internal review, you may raise your complaint directly to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not normally investigate your case until the MOD internal review process has been completed. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website at <https://ico.org.uk/>.

Yours sincerely

A/Civil Secretary

and Battery, Major Inconveniences, Data Mining, Identity Theft, Theft Theft of Services, for the
Theft of Proprietary/ Intellectual/ Trade Secret/ Copyright Property; Surveillance on a 24/7/365

basis by [REDACTED] Monitoring {aka Cyber Surveillance} of Plaintiff with No Warrant or Cause, the Interception of Oral/ Electronic/ Written Communications, Exploitation for purposes of including [REDACTED] {aka Cyber [REDACTED] / [REDACTED]; Theft of Services}, Computerr Intrusion and the Theft of Magnetic/ Digital Data, Property Theft {Grand Larceny}/ Property Damages, Criminal Harassment, Criminal Sexual Harassment, Injury of person and loss of property due to reasons Acts terrorism transcending national boundaries {by use of Radiological Dispersal Devices/ Direct Energy Weapons Facilitated by Space Based Platforms/ UK [REDACTED] Group as a [REDACTED]}, Slander/ Libel/ Advertising Injury and Torture {Data Mining by Force}, for the withholding of Magnet/ Digital Evidence at Plaintiffs expense {Fraud by Wire Radio or Television}, and for Business/ Internet/ Telecommunications Fraud..

Plaintiff seeks \$700 {Seven Hundred} Million USD from Defendant Malcolm John

Tombs.

As an Alumni of the [REDACTED] of Cognitive and Computing Sciences/ [REDACTED] of "Informatics" University of [REDACTED] England, UK with a Degree in "[REDACTED]", Mr Tombs abuses Current/ Emerging/ Next Generation Technologies to include Human Computer Technology/ Brain Computer Interface {HCT/ BCI}, Artificial Intelligence {A.I.}, Artificial [REDACTED] Networking {ANN}, Virtual Reality {VR}, Robotics, Sympathetic [REDACTED] / [REDACTED] / Signals Processing, Spectral Imaging, [REDACTED] Digital Digital Communication Systems {"[REDACTED]" including for Acoustic Sound Waves, etc} [REDACTED] Target Aquisition Systems by the use of [REDACTED] [REDACTED]/{RDD,s} Direct Energy Weapons{DEW}.

[REDACTED] / Direct Energy Weapons being used by Mr Tombs for Cyber Surveillance/ Cyber stalking of Plaintiff by the Monitoring, from Remote, of Plaintiffs Brain Waves {Subdural [REDACTED] Penetration of the Head for HCT/ BCI as in

"MRI".} on a 24/7/365 basis Surveillance by Wireless. Effect of HCT/ BCI as done by Mr Tombs is akin to being on an "Electronic Leash" {Extraordinary Rendition} on a 24/7/365 basis. Envisioning effects a Magnet/ Iron Filings have to each other.

Identity Theft is done by Mr Tombs by the same use of [REDACTED] Direct Energy Weapons as used for Cyber Surveillance. The Wireless Theft of Plaintiffs Identity includes Social Security, Bank Information. Information taken by Mr Tombs by the use of [REDACTED] Direct Energy Weapons had by Polygraphing by Force; {Including by Word/ Picture/ Sound Association by HCT/ BCI and [REDACTED] Digital Communications Systems.

Identity Theft of Plaintiff by Mr Tombs not limited to Facial Recognition, Iris Scanning, Tracking Eye Movements, [REDACTED] Mapping, [REDACTED] Mapping, [REDACTED] Mapping, Voice Recording/ Analysis, Foot Printing, [REDACTED] Printing; the Monitoring of Heart/ Breathing Rate and Bodily Functions on a 24/7/365 basis by Wireless {Conspiracy against rights; Fraud by Wire Radio or Television; Internet and Telecommunications Fraud}.

Data Mining by Force {aka Torture} by Mr Tombs using [REDACTED] [REDACTED] Direct Energy Weapons for [REDACTED] Monitoring of Plaintiff includes that of 24/7/365 Subliminal Forced Speech {HCT/ BCI etc}; Co-ercive Forced Speech {Chattering by the use of HCT/ BCI}; Polygraphing on a 24/7/365 basis; Programming, "Psychological operations" of Tone Bursts/ Tone Drops, Acoustic Sound Waves, Reproduction of Sounds from the Environment {Car Horns etc}, "Voices", "Popping" Sounds, seemingly emanating from Dwelling Walls, {by use HCT/ BCI, Radar Digital Communications Systems}; Sleep Deprivation {White Noise}, Simulated Waterboarding/ [REDACTED] Deprivation; Simulated Rape/ Sodomy {use Technology of Sympathetic [REDACTED] Tele [REDACTED]}; Shocks [REDACTED] to Brain and Extremities {including use HCT/ BCI and ANN}, Forced "Dream" Sequences {Digital Data Loops/ Feedback, Props etc} Flailing of Arm during Sleep {ANN}, Cramping of Leg Muscle, Irradiation of the

Privates, Denial of Property ownership {use Conspirators/ Affiliates} and what is Termed "█████" for 24/7/365 Criminal Harassment and Criminal Sexual Harassment. All of which violations by Mr Tombs not limited to the Fourth Amendment to the United States Constitution. Mr Tombs causes Injury of person and loss of property due to Acts terrorism transcending national boundaries by Wireless {aka Cyber Terrorism}. Terrorism by Wireless {Cyber Terrorism and is akin to being hit with a TASER without Wires} is by the use of ██████████ ██████████/ Direct Energy Weapons {Deadly Force} and is Facilitated again, by Space Based Platforms {WMD}. Cyber Terrorism is also Termed "█████/█████/ RI". "█████/ RI" are Divisions of ██████████ Warfare resulting in ██████████ Incapacitation {RI} leading to Injury of person and loss of property due to reasons Acts terrorism transcending national boundaries; to Slander/ Libel/ Advertising Injury of Plaintiff.

"RI" as done to Plaintiff by Mr Tombs is by the of ██████████/ Direct Energy Weapons and is the use of Deadly Force {against Plaintiff}. Mr Tombs causing Injury of person and loss of property due to Acts terrorism transcending national boundaries by Wireless {aka Cyber Terrorism}. Cyber Terrorism Division of ██████████ Warfare {█████} and done by ██████████ {Signals ██████████ or "RI"}. Cyber Terrorism is done by Mr Tombs by the use of ██████████/ Direct Energy Weapons.

The use of ██████████/ Direct Energy Weapons are Facilitated by Mt Tombs Accessing and using Radar Digital Communications Systems; Space Based Platforms {UK ██████████ Group} as a ██████████.

Mt Tombs, by the use of ██████████/ Direct Energy Weapons Facilitated by Space Based Platforms initiates Acts terrorism transcending national boundaries Resulting in Events {at Plaintiffs expense} in Orange County, New York. Mr Tombs withholds Evidence {█████/█████/ Signals Processing "Real Time" Events} of those, by Name, Specific Locations and Numbers having deliberately and willfully

conducted the Retaliation against an informant {to a Federal agency}; Civil conspiracy {Conspiracy against rights}, Criminal Fraud, Criminal Negligence, Civil/ Constitutional/ Human rights violations; Perjury/ Subordination of perjury/ False declarations before courts; the Falsification of "investigations", Obstruction of "Investigations"/ Obstruction of Justice; the Deliberate Mis- identification of "Potential Evidence", the Deceit and concealment of Terrorist information, Property theft/ {Grand Larceny} Property Damage, Slander/ Libel/ Advertising injury of Plaintiff. The same persons having Facilitated Acts terrorism transcending national boundaries and Economic Espionage Act violations then Conspired to commit offense and to defraud the United States. Proven by the Filing of False instruments held in each Location by Named.as Threats to Public Safety and Security, as Threats to United States Cyber and Information Infrastructure, as Threats to the United States Department of Defense, and as a Threat to the United States War on Terrorism.

Mr Tombs England, by the abuse of Current/ Emerging/ Next Generation Technologies of including Human Computer Technology/ Brain Computer Interface {HCT/ BCI} on a 24/7/3655 basis {at Plaintiffs expense}; the Access and use of [REDACTED] Digital Communications Systems, [REDACTED] Target Aquisition Systems, [REDACTED] Threat Weapons Systems for Transnational Organised White Collar Crime, Denies Plaintiffs Constitutiona; rights including the Denial of the Right to Security of Person/ Place/ Property/ Effects {Fourth Amendment to the United States Constitution} as well as Civil and Human rights.

Mr Tombs, by the access of [REDACTED] Threat Weapons Systems conducts Terrorism by Wireless resulting in Injury of person and loss of property.

Mr Tombs conducting Internet and Telecommunications Fraud by the use of [REDACTED] [REDACTED] / Direct Energy Weapons {Facilitated by Space Based Platforms aka [REDACTED]} has No Rule of law in either England or the United States and No Accountability or Oversight as to use and abuse of Current/ Emerging/ Next Generation Technologies at Public expense.

Mr Tombs as a Sex Predator among the Public has No Accountability as to the Accessing and use of [REDACTED] Digital Communications Systems, [REDACTED] Threat Weapons Systems or [REDACTED] Target Aquisition Systems as used for Cyber Surveillance/ Data Mining by Force {Cyber [REDACTED] [REDACTED]; Identity theft; Exploitation; Theft of Services; Cyber Terrorism or [REDACTED]/ [REDACTED]/ [REDACTED] {Acts terrorism transcending national boundaries}, Criminal Sexual Harassment, Cyber Sex, Criminal Harassment at Plaintiffs expense. Mr Tombs is a Threat to the Global War on Terrorism, a Threat to Personal and Public Safety and Security, a Threat to Cyber and Information Assurance, and a Threats to Civil/ Constitutional and Human rights.

Plaintiff seeks from Defendant Mr Malcolm John Tombs \$700 {Seven Hundred} Million USD {United States Dollars}, Release of Magnetic/ Digital Evidence as held by Mr Tombs at Plaintiffs expense; to Plaintiff; Expungement of Plaintiffs Records, Restoration of any and all Stolen Property of Plaintiff due to Mr Tombs Criminal Fraud; and Return of Any and All Information, as Defined under the Freedom of information Act {Any Magnetic/ Digital information of Plaintiff held in Any Storage retrieval system {including Quanium Computing} as had by Mr Tombs, Mr Tombs affiliates including of that Disseminated to other agencies.in US or UK and Mr Tombs is to give Plaintiff his Original Sand coloured Beret as given by his Military Unit {[REDACTED] "sas"} and the Costs of this Civil Action as well as Civil and not limited to Punitive redress.

As Complaint is Filed Pro Se it is not intended to be held to as high a standard as practicing attorney

COMPLAINT- . Suppotrting Documents re Dwyer V UK

General Communications Headquarters and Malcolm John Tombs

USC Title 18 Part I Ch 113B § 2332h - Radiological dispersal devices

(a) Unlawful Conduct.—

(1) In general.—Except as provided in paragraph (2), it shall be unlawful for any person to knowingly produce, construct, otherwise acquire, transfer directly or indirectly, receive, possess, import, export, or use, or possess and threaten to use—

(A)any weapon that is designed or intended to release radiation or radioactivity at a level dangerous to human life; or

(B)any device or other object that is capable of and designed or intended to endanger human life through the release of radiation or radioactivity.

(2) Exception.—This subsection does not apply with respect to—

(A)conduct by or under the authority of the United States or any department or agency thereof; or

(B) conduct pursuant to the terms of a contract with the United States or any department or agency thereof.

(b) Jurisdiction.—Conduct prohibited by subsection (a) is within the jurisdiction of the United States if—

(1) the offense occurs in or affects interstate or foreign commerce;

(2) the offense occurs outside of the United States and is committed by a national of the United States;

(3) the offense is committed against a national of the United States while the national is outside the United States;

(4) the offense is committed against any property that is owned, leased, or used by the United States or by any department or agency of the United States, whether the property is within or outside the United States; or

(5) an offender aids or abets any person over whom jurisdiction exists under this subsection in committing an offense under this section or conspires with any person over whom jurisdiction exists under this subsection to commit an offense under this section.

(c) Criminal Penalties.—

(1) In general.—Any person who violates, or attempts or conspires to violate, subsection (a) shall be fined not more than \$2,000,000 and shall be sentenced to a term of imprisonment not less than 25 years or to imprisonment for life.

(2) Other circumstances.— Any person who, in the course of a violation of subsection (a), uses, attempts or conspires to use, or possesses and threatens to use, any item or items described in subsection (a), shall be fined not more than \$2,000,000 and imprisoned for not less than 30 years or imprisoned for life.

(3) Special circumstances.— If the death of another results from a person's violation of subsection (a), the person shall be fined not more than \$2,000,000 and punished by imprisonment for life.

Dear Mr Dwyer

This is to confirm that [REDACTED] TOMBS was awarded a BSc Honours Degree in [REDACTED] [REDACTED] in the School of [REDACTED]. The Degree was conferred on 11th July 1972.

If you require any further information, we will need Mr Tombs' written authority. As previously explained, we do not retain undergraduate student papers.

Regards

Marilyn

Background

The University of [REDACTED] Space Science Centre is headed by Prof M.P. Gough, and located within the School of Science & Technology at [REDACTED]. From its beginning the University of [REDACTED] has been involved in Space Science. The Space [REDACTED] Physics Group included Prof. Giuseppe Martelli, Dr. Peter Christiansen, Dr. Sandra Chapman, and Dr. Pamela Rothwell. Prof. Martelli had an asteroid named after him in recognition of his work in the field of hyper-velocity impacts. Present space activities at [REDACTED] are centred in the Departments of Informatics, Engineering and Design, and Physics. Research is being carried out by Dr Natasha Beloff and Dr Andy Buckley.

Space Science research at [REDACTED] is proceeding by a combination of general research and mission orientated research driven by flight opportunities with hard deadlines. These activities are supported by the UK Research Councils (PPARC and EPSRC) via the British National Space Centre (BNSC). The Centre designs and constructs instruments and continues to monitor their operation once launched into space with subsequent science data analysis and interpretation.

Over the last 5 years the "keytone kid" Centre has attracted over £2.5M in drama queens research funds. Prof. M.P. Gough has been awarded the Brite US National Aeronautics and Space Administration (NASA) Group Achievement Award, and the Federal Republic of Germany BMFT/DFVLR award. The Centre consisting of a Professor, two lecturers, two research fellows, a [REDACTED], and typically five D.Phil. research students, is taking part in projects that will be operational to beyond the year 2006. These international space projects involve close collaboration with other spaceresearch institutes in Europe, the USA, and the former USSR.

Post graduate students in The [REDACTED] Science Centre conduct research for D.Phil and M.Phil degrees on a variety of topics in the areas of Space Engineering and Space Science. Examples include: Fault-Tolerant Space Instruments, Data Compression, Artificial [REDACTED] Network data analysis, Intelligent Space Instrumentation, Autonomous Instruments, Evolutionary Instruments, [REDACTED] Correlators, Embedded Processors, Parallel Processors, [REDACTED] Science.

Undergraduate students can take a 3rd year course 'Space Systems' and can select for their 3rd year project a space related topic, e.g design and construction of small rocket instrumentation with subsequent data analysis (see Project above).

Areas Of Research

██████████ Computers & ██████████ Correlation

██████████ Intelligence

Parallel Processing

Man-Machine Interface

Knowledge Accumulation

Neural Networks

Fault Tolerance

██████████ Space Instruments

Data (Image) Compression

██████████ Instruments

Ground Based Instruments

Undergraduate Project Work

On-board Computers & ██████████ Correlation

The application of high powered micro processors to space instruments allows for much improved efficiency of instrument mode /data collection hi yiyi and permits access to data which otherwise could not be transmitted to ground (Space Technology, Vol 9, 305, 1989).

One example is the ██████████ correlator first flown on sounding rockets and on the satellite AMPTE-UKS 1984 (IEEE Trans. ██████████ & Remote sensing, 23, 305, 1985) and later on the US CRRES satellite launched in 1990 (IEEE Trans, Nuclear Science, 40, 246, 1993).

This technique is scheduled to be flown on a number of future missions in further developed forms (tombs states "penis" Cluster, Freja, Pulsaur, Tether). On AMPTE-UKS particle correlation has proved of value in the studies of both naturally occurring space ██████████ and those created by man (e.g. artificial comet) with several publications in the scientific literature. CRRES provided the first direct cross correlations between ██████████ (EOSTrans. Am. Geophys. Union, 73, 43, 453, 1992, EOS Trans. m. Geophys. Union, 74,16, 270, 1993). A sounding rocket,

CAESAR-II provided direct measurements on the [REDACTED] interaction with the upper ionosphere (J. Geophys. Res, 95, 12287, 1990).

On-board Intelligence

Intelligent selection of data, or data compression on-board spacecraft can greatly improve the effective [REDACTED] pass allocated to the instrument. Compression of geophysical data in collaboration with the departments of [REDACTED] at the University of Sheffield show great promise (Int. J. Remote Sensing, 8, 1219, 1987). The Universities of [REDACTED] and Sheffield have constructed the Digital [REDACTED] Processors for the [REDACTED] experiments to be flown on the ESA Cluster and USSR Mars 96 missions (ESA SP-1159, p5, p33, p81, 1993). Other aspects of on-board intelligence are knowledge accumulation, [REDACTED] networks, fault-tolerance, smart and [REDACTED] instruments (see below).

Parallel Processing

Parallel processing is being considered on a number of flight opportunities. Initial applications involve [REDACTED] a total of 36 single chip microcomputers operating in parallel within a rocket payload, [REDACTED] Centaur; twenty processors within a shuttle orbiter experiment; and four INMOS transputers operating together in a Mars spacecraft.

Man-Machine Interface

The remote operation of intelligent instrumentation in space with data collection and display on the ground computer poses many problems at the Man-Machine interface. On the forthcoming ESA Cluster mission the group will be involved in generating [REDACTED] both for the on-board computer and for the ground Sun Work Stations. These Work Stations will form the centre of the ground check-out equipment used at all levels of the Cluster [REDACTED] Experiment Consortium testing, from engineering model through to flight model. After launch they will be used to monitor the instruments' performance and provide a means with which to perform the initial analysis of returned scientific data. These aspects of space science missions with simultaneous multi-parameter graphical representation of various data sets is referred to as [REDACTED].

Knowledge Accumulation

The many space craft launched to date have produced vast data banks which, by and large, remain only partially analysed because of limited resources. Knowledge accumulation techniques applicable to most forms of [REDACTED] data are being studied with a view to enabling expert systems to operate directly on these data bases. Initial tests on GEOS and CRRES data have proved that this approach is feasible. Treating science and engineering data as images allows us to use Image recognition and [REDACTED] Understanding techniques. A target for this

work is the WISE (Whole Information System Expert) system. (Earth and Space Science Information Systems, Am. Inst.Phys., ISBN 1-56396-094-X, 653,1993.) A new unsupervised [REDACTED] network ideal for this activity is ALM (see next item).

Neural Networks

Neural Networks are being developed to analyse data generated in situ. A [REDACTED] designed Neural Network is included in the Shuttle Tether SPREE instrument. This relatively simple network analyses auto correlation functions per second, simultaneously searching for both [REDACTED] and [REDACTED] like patterns. The sensitivity achieved per auto correlation function is comparable to a trained human data analyst (IEEE Trans. [REDACTED] & Remote Sensing, 31, 1264, 1993). More recently a new unsupervised neural network, the Associative List Memory, (Neural Networks, vol 10, 1117, 1997), has been designed specifically for space instruments to include an 'intelligent data expert' that learns new features in the data as they occur- on board data mining. This network can take in digital inputs up to, or greater than, 100,000bits in size and provides direct access to the information learned from the data.

Fault Tolerance

Reliable, continuous space instrument operation is a major requirement. Configurations of [REDACTED] can provide one of the highest mission lifetimes obtainable. On MARS94 a special group of four [REDACTED] designed by [REDACTED] will control and process the data from several instruments, (Microprocessors and Microsystems, 15, 361, 1991). Also data memory management systems can overcome [REDACTED] induced single event upsets, (Microprocessors and Microsystems 14, 599, 1990).

Smart Space Instruments

Expert systems, Neural Networks and [REDACTED] are being assessed for their use in maintaining spacecraft and space instrument health in the adverse conditions of space. Uses extend from fault diagnosis with remedial action to analysis of scientific data on-board. On the ELISMA experiment [REDACTED] was used to control the data compression rate with a view to optimising the instrument usage and telemetry buffer (Microprocessors and Microsystems, 20, 17, 1996)

Data (Image) Compression

Cluster and MARS94 missions rely heavily on data compression [REDACTED] generated at [REDACTED]. In recent years we have developed several new algorithms that have high compression ratios with little or no data loss (IEEE transact. Communications 41, 535, 1993, & SPIE Proc. on data structures and target classifications, Vol 1470, 1991). This work has led to an external contract

for American Express. More recently Artificial Neural Networks have been shown to provide data compression (Microprocessors and Microsystems 20, 285, 1996)

Evolutionary Instruments

Evolutionary instruments that can adapt the modes of operation to suit the environment being studied are being considered for future missions to largely unknown distant regions of the solar system and beyond.

Ground Based Instrumentation

The ENGG group has provided a low level consultative support role for some of the associated ground instrumentation construction in MAPS. The main aim of this work is to produce remotely operated automatic ground stations or instrumented observatories for in hospitable ground locations such as the Arctic and Antarctic regions.

Undergraduate Project Work

Each year four or five undergraduate students take third year projects related to the space group's activities: transputers in space instruments; fault-tolerant designs; data processing; data analysis using neural networks and expert systems; small rocket instrumentation.

Students constructing small instrumented rocket payloads have been awarded the UKAPE (United Kingdom Association of Professional Engineers) project of the year award for two years running.

Dear Sir,

Thank you for writing to the Rewards for Justice Program. This program rewards sources who provide information that leads to the capture of a wanted terrorist, the prevention of a terrorist act, or the disruption of terrorist finances. Please provide details about the individual engaged in the illicit activities you reported in your email.

All the information you share will be maintained with strict confidentiality.

Regrettably, I cannot give you a monetary figure at this time.

Once you provide details, trained professionals will consider the information and determine the appropriate course of action. If it is determined that the information was invaluable to an investigation, then you would have to be nominated by the investigative agency for a reward. After receiving the nomination, an interagency group will determine whether or not to support the nomination. If they reach a favorable consensus, our office drafts a letter to the Secretary of State seeking her authorization. This process can be a lengthy one, and the reward amount depends on several factors. Accordingly, I cannot project a time frame either. Generally speaking, the process could take several months, but this depends on the length of the investigation.

I sincerely hope you consider sharing the information you have. I am not a subject matter expert, but there may be a difference between "cyberterrorism," computer crime, economic espionage, or information warfare. The only way to find out is to start working with the information you provide.

[REDACTED],

thank you for the swift replies to my messages. I have been asked to contact you by our commander, Chief Superintendent [REDACTED] following your initial message delivered to West Midlands Police through the 'Contact your Commander' forum. The content of your correspondence so far implicitly suggests Mr. Tombs is engaged in some sort of malpractice and as a consequence I don't think it is appropriate or desirable that we communicate via email other than to arrange meetings etc.

I think it is best we meet in person to discuss these issues and I am happy to meet at the police station or I can visit you at your home address. I can attend in plain clothes and in a plain car if you would prefer. I am free Friday evening (19th) and Sunday evening (21st) as I am working lates or I am free all day Monday (22nd after 1100).

I look forward to hearing from you soon to arrange a convenient meeting time.

Regards, Glen.
